Aspiring Software Developer

I am a dedicated and results-driven B.Tech student in Information Technology, with strong programming skills in Java, C++, JavaScript, HTML, and CSS. I also have a solid command of Microsoft Office tools. I am eager to contribute to real-world projects, apply my knowledge in practical settings, and continue expanding my technical expertise through continuous learning and new challenges.

WORK EXPERIENCE

Prodigy InfoTech

Full-Stack Web Development Intern • Remote

- Developed full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Built and deployed responsive user interfaces with React.js, integrating backend APIs using Express and Node.js.
- Worked with MongoDB to design and manage databases for dynamic web applications.
- Collaborated on GitHub to manage code versions and contribute to team-based projects.
- Enhanced problem-solving skills through real-world, task-based modules and hands-on challenges.
- Prodigy InfoTech is a technology company focused on software development, IT solutions, and training programs.

Academic Excellence

PROJECTS

Secure User Authentication • 04/2025 - 05/2025

Prodigy Infotech

Developed a secure and responsive full-stack web application that implements user authentication and authorization using the MERN stack. Integrated JWT (JSON Web Tokens) for session management and role-based access control. Designed intuitive UI using React and implemented protected routes to ensure proper access privileges.
